## Bangkok International Hospital

### Asia-Pacific's Leading **BONE x BRAIN** Hospital

#### OVERVIEW

**Bangkok International Hospital** is the first private orthopedic hospital in Thailand. Our commitment to excellence is recognized by prestigious awards and accreditations :

- Asia's Top Private Hospitals 2025
- Best Specialized Hospitals Asia Pacific 2024: Orthopedics
- Best Specialized Hospitals Asia Pacific 2024: Neurology

With a **"one-stop service"** approach, we deliver world-class, integrated care for orthopedic conditions, blending scientific rigor with healing artistry. Our specialists cover a full spectrum, from preventative screenings to advanced diagnostics and both surgical and non-surgical treatments. A dedicated multidisciplinary team ensures comprehensive recovery and long-term well-being.

#### Orthopedics

e.g. trauma and fractures, foot and ankle, hand and pediatric orthopedics.

#### Spine

#### Hip and Knee

#### Sports Medicine

#### OUR FOCUS

We elevate healthcare by merging the art of healing with advanced technology by providing precise, compassionate expert care for patients with orthopedic and spinal conditions, setting new standards for integrated healthcare. Our commitment is delivered through:

**Internationally accredited Centers of Excellence** in Orthopedics with global partners.

**Comprehensive, multidisciplinary "one-stop care"** for diagnosis, treatment and full recovery.

**Integrated International Patient Services** for a seamless, patient-centered experience with international medical services.

**5-star inpatient wards** with luxurious comfort and personalized butler service with lounge.

**State-of-the-art technology** ensuring the best possible outcomes and a high degree of safety.

**"Smart Hospital Concept"** integrating digital systems for modern, connected healthcare, e.g. SMART ICU.

#### ARTIS pheno – Robotic C-Arm

for minimally invasive orthopedic surgery

#### Velys™ – Robotic Assisted System

for personalized total knee replacement

#### O-arm 3D Imaging Navigator

for minimally invasive spine surgery

## WHAT WE TREAT

**At Bangkok International Hospital,** we offer specialized centers for all types of orthopedic conditions and spine-related diseases. These centers boast Joint Commission International (JCI) Clinical Care Program Certification (CCPC).

- **Low Back Pain**
- **Total Knee Replacement**

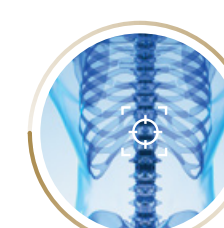

Our Integrated Care Services provide holistic, patient-specific healthcare through multidisciplinary medical teams collaborating to achieve effective treatment outcomes while minimizing side effects.

**Robotic-assisted total knee replacement**  
using the VELYS™

**Total hip replacement surgery**  
using Direct Anterior Approach (DAA) with  
muscle sparing technique

**Minimally invasive spine surgery, e.g.**

- Microscopic spine surgery
- Endoscopic spine surgery
- Minimally Invasive Screws Cement Augmentation in Pedicle technique (MIS CAPT)

**Arthroscopic surgery**  
for ligament and muscle injuries

**Treatment of sports injuries**

**Personalized post-operative rehabilitation programs**
